CERTIFICATE

Sanitary situation of Uruguay with respect to
BSE "bovine spongiform encephalopatia":

By this document it is certified that, on May 27,2004, the International Committee of OIE has recognized that Uruguay is provisionally free of BSE, on basis of what it is informed on Article 2.3.13.4 of "OIE Sanitary Code for Terrestrial Animals"

This recognition is based on documents presented to OIE by Uruguayan Official Veterinary Services. Any significant epidemic situation in Uruguay connected with BSE should be informed immediately by the Uruguayan delegate on OIE.

Paris, 27 May 2004

Signed by:

(non legible) - President
and
Bernard Vallat - General Director
